

HEAVY-DUTY SOLUTIONS

Precision For Collision (PFC) understands the unique demands of heavy-duty aftermarket repair.

That's why Snap-on® Total Shop Solutions (TSS) trusts PFC and its comprehensive service and support for heavy-duty equipment.

Together, we deliver solutions that ensure your shop runs at peak efficiency and reliability.

QUICK & ACCURATE WHEEL ALIGNMENT

JOSAM® heavy-duty wheel alignment enables tire service centers, as well as truck and bus workshops, to offer quick and correct wheel alignment services.

FRAME REPAIR

JOSAM® straightening equipment restores damaged vehicle frames and chassis without costly replacements – saving time, labor, and money for heavy-duty service centers and fleet operators.

SOLUTIONS**

JOSAM® CAM-ALIGNER

The Cam-Aligner keeps heavy-duty vehicles road-ready, reducing downtime and increasing productivity.

Use the compact, fully digital wheel alignment system to measure anything from long-haul rigs to pickup trucks in the workshop or on the road.

JOSAM® FRAME PRESS

Built into your shop floor, the JOSAM Frame Press uses hydraulic power and modular tools to make heavy-duty frame straightening faster and more precise.

Choose from basic to premium setups to match your shop's workflow and budget.

YOUR HEAVY-DUTY PARTNER

For complete heavy-duty equipment solutions, Precision For Collision (PFC) is with you every step of the way.
